

ERIKOISDANCE 40: Drvg Cvltvre -- Ubuntu Psychosis (CDr)

UBUNTU TRILOGY PART 2 -- TRIP AT THE BRAIN

Vincent Koreman: Ubuntu Psychosis
documents the second phase in my life.
Being a punk kid in a small town, escape was
everything. Escape from school, escape from
home, escape from reality. For a period of
about 8 years I was a psychonaut. Diving deep
into mind altering drugs until I almost broke

my brain. My mom nursed me back to health
with bike rides, daytime television and fresh
fruit. I snapped myself out of a psychotic
episode and got my life back on track. Sort of.
Sometimes I still have flashbacks.

Welcome to *Ubuntu Psychosis*...

FORMAT: CDr + xerox sheet *** DURATION: 42 minutes
RELEASED: May 9th 2019 *** FILE UNDER: electronics, noise, Ubuntu Trilogy
